

POETRY.
BROKEN TIES.
BY JAMES MONTGOMERY.

The broken ties of happier days,
How often do they seem
To come before our mental gaze
Like a remembered dream.
Around us each discovered chain
In sparkling ruin lies,
An earthly band can ne'er again
Unite those broken ties.
The parents of our infant home,
The kindred that we loved,
Far from our arms perchance may roam
To distant scenes removed;
Or we have watched their parting breath,
And closed their weary eyes,
And sighed to think how early death
Can sever human ties.
The friends, the loved ones of our youth,
They too are gone and changed;
Or worse than all, their love and truth
Are darkened and estranged.
They meet us in a glittering throng,
With cold averted eyes,
And wonder that we weep our wrongs
And mourn our broken ties.

Oh! who in such a world as this
Could bear their lot of pain,
Did not one radiant hope of bliss
Unclouded yet remain?
That hope the sovereign Lord has given,
Who reigns beyond the skies,
That hope unites our souls to heaven
By truth's enduring ties.
Each care, each ill of mortal birth,
Is sent in pitying love,
To lift the lingering heart from earth,
And speed its flight above.
And every pang which rends the breast,
And every joy that dies,
Tells us to seek a heavenly rest,
And trust to holier ties.

TO MULTIPLY A SHIRT.

As Bays, whose cup of poverty was dashed,
Lay snug in bed while his one shirt was washed,
The dame appeared, - and holding it to view,
Said, "if 'tis washed again, 'twill wash in two."
"Indeed!" cried Bays, "then wash it, pray,
Good cousin;
And wash it, if you can, into a dozen!

MISCELLANY.

Wooden pavements.—No part of the experimental block of wooden pavement in Broadway has been started or deranged by the heavy masses of ice and snow during the long and inclement winter. It is now dry, smooth and hard, and we should think the project has been satisfactorily tested, and that the common Council should go on with the experiment.—Noah.

Whips.—The town of Westfield, Mass. says: The Greenfield Gazette, is probably without a rival in the whip manufacture. Five or six extensive establishments in that town, turn out whips, annually to the amount of \$500,000. The business furnishes employment for a large number of hands—men and girls. Girls are employed in braiding the lashes, &c. The manufacturers find a market for their whips in all parts of the United States, the Canadas and the West Indies. The article affords a large profit, and all who have been engaged in the business for a length of time have become wealthy. Thus we are informed by a native.

An hundred thousand dollars lost!—A package of money containing \$100,000, in \$500 and \$1,000 notes of the U. S. Bank, addressed to "W. S. Hatch Cashier of the Commercial Bank of Cincinnati," has been lost or stolen between Philadelphia and Cincinnati. A reward of \$10,000 is offered.

A gentleman of Maine on a "Moose Hunt," came near losing his life the other day; by the explosion of a "cast iron" musket which he had purchased probably from some vender of wooden nutmegs who, the Bangor Whig says, deserves to be "kicked to death by spiders" for this sort of act of knavery at the expense of every consideration of humanity.

We find in the Boston Transcript, the following notice:
"Great sale of Provisions.—One of our wealthiest provision houses sold this week, to a Pennsylvania, for cash, eighty-four thousand dollars worth of provisions. One item was 300 hds. of hams at 14 cents per lb. Western Pork at \$26 per bbl. Mess Beef \$13. No 1, \$10.50. Lard 10 cents per lb.

A little spryer than chain lightning whipped up!—The London Sun, a large daily evening paper, states that its large edition is printed at the rate of one hundred sheets per minute.

Good breeding.—Mr. Charles Fox, a teacher of one of the public schools, in Boston, was complained of by the guardian of a female pupil for interdicting girls from coming to school with the hair done up in papers. After hearing both parties the general school committee decided that Mr. Fox was justified in the course he had adopted, and that the young lady should be restored to her rank in school after making a suitable apology.

Curious clock.—It is stated in the New York Times of the 2d inst. that "crowds have gathered constantly these two days past, at the window of Marquand's jewelry shop, to gaze at a mantel clock of a new and very singular pattern. The neater portion, where the pendulum should be, exhibits an apparent sea, heaving as after a storm, with a beautiful ship under easy sail, and pitching and rolling upon the heavy undulating wave as gracefully as Long Tom Coffin's darling Ariel herself." The contrivance is very curious and ingenious.

Gapes in Chickens.—One of our subscribers informs us, that a drop of the spirits of turpentine, put into the mouth of a chicken from the point of a feather or otherwise, will cure the gapes in chickens. Another says that mixing salt with their food will prevent their taking gapes.

Ohio Farmer.

Escape from prison.—Wm. P. McGrew, the murderer of the two young Kreams in Alabama, and who had been arrested and brought from Texas, escaped from the Mobile prison, March 14th. Both the jailers, Savage and McCracken, have been arrested on suspicion of furthering his escape by opening his cell and removing his irons. \$1000 reward is offered for his apprehension. [Savage has been committed for trial, and McCracken set at liberty.]

A Handsome Fee.—It is said that the sum of twenty-five thousand dollars has been charged by Mr. Livingston, for the management of the great case between the U. S. and the city of New Orleans, by which the latter gained one million of dollars.

It is affirmed that the Baron Rothschild is seen more than ever in the saloons of the Duke of Broglie and the Russian Ambassador. It would seem that his power over the crowned heads of Europe was, if possible, still more augmented than it ever had been before.

Such is the anxiety to increase the culture of silk, in New-England, that the seed of the white mulberry sells at \$7 50 per lb. Some persons who were sagacious enough last summer to foresee this, will realize no mean fortunes.

There was a grand turn-out of the Journeymen Tailors, yesterday, with music, banners, &c. One of the banners had inscribed on it, "We will never surrender! by the Eternal!" Radical enough. It was observed that they were the neatest and best dressed men ever on parade. Their coats were a perfect fit, and in full fashion. Noah, 1st inst.

Cannibals at Barcelona.—The following paragraph is from a Spanish Correspondent of the London Morning Chronicle. After such a statement, human nature must stand appalled! "It appears that the blood thirsty wretches who dragged one hundred Carliss from the citadel of Barcelona, and savagely put them to death; were not quite satisfied with the perpetration only of this barbarous act of cruelty, but consummated their atrocity by feeding upon the flesh of their slaughtered victims. The highest classes, even ladies, prized as a patriotic act, the eating of O'Donnell's body! By this, you see the lowest or uneducated are not the most contemptible class here. I myself saw several persons eating O'Donnell's flesh, after having cut off his feet and head.

Mr. Van Haren's prospects in the South and Southwest.—We have recently conversed with an intelligent and highly respectable gentleman of this State, who has recently taken a tour through Georgia, Alabama, Mississippi, and Louisiana, who represents Mr. Van Buren's prospects as cheering in the highest degree in these States, that the well informed and candid opposition men give up the contest in Georgia, Alabama, and Louisiana, as a hopeless chance, - this is what we have all long anticipated. Fayetteville Jour.

The Deposite Banks.—Some of the federal papers affect great alarm for the safety of the public money, because the deposite banks have not more specie on hand. They have as large a proportion of specie as the U. S. Bank ever had, and larger, we believe than the best and most prudent managed banks usually have. We wish the government dividends and even the stock itself in the U. S. Bank, were as safe as the money in the vaults of the "pats" as they are called. N. H. Pat.

Original Anecdote.—One day during the present week, as a gentleman was passing through town, he saw a drunken "nan" lying before a grocery door on his back, with his heels up, and face covered with blood and dust, where he had been politely hoisted by the keeper within, on account of his becoming too obstreperous. Hollool the keeper of the grocery! said the gentleman, your sign has fallen down, and is lying before the door!—Jeffersonian.

Enormous.—The banking capital allowed to banks already chartered in Louisiana, amounts to seventy-three millions of dollars! All the incorporated are permitted to trade on double their capital: so that the banking speculations of Louisiana involve an amount of one hundred and forty-six millions of dollars!

Laborers.—The New York Gazette of Thursday, says: "The laborers made a turn-out yesterday, for ten shillings a day. In about two hours, half of them went to work, some at eight shillings, and some at nine, and the rest went without their dinner. The laborers are pouring into the city from all quarters. Hundreds may be hourly expected from Europe—old Ireland alone will send out at least 40,000 emigrants to this city this spring, and most of them will be here by the first of June. An unusual number of mechanics are arriving here from different ports in England."

Sugar from Indian Corn.—M. Pallas lately presented to the Academie des Sciences of Paris a sample of this substance, extracted from the stem of the plant, which has been found to contain nearly six per cent of syrup boiled to 40 degrees, a part of which will not crystallize before fructification, but it condenses and acquires more consistency from that period to the state of complete maturity. The most favorable time to obtain the greatest quantity of sugar is immediately after the maturity and gathering of the fruit. The matter left after the extraction of the sugar is capital to feed cattle or make packing paper.

"Which is the best shop to get a fiddle at?" asked a pupil of Tom Cooke, the musician. "An apothecary's shop," answered the wag; "because if you buy a drug there they always give you a visit."

CLARET.

THIS splendid imported Horse will cover mares the present season, to commence 15th February, and expire 1st day of July, 1836. A stable of the subscriber, Granville County, N. C. 5 miles north of Williamsboro', and 14 miles south of Boynton on the main road leading from Oxford, N. C. to Boynton, Va., at \$50 the season payable at the expiration thereof, \$75 to insure, with \$1 cash on the ground in all cases. The insurance money will be due as soon as the mare is ascertained to be in foal or parted with.
Good pasturage for mares, and fed at 25 cents per day, and no charge for servants board when attending to mares.
Every possible care will be taken to prevent escapes or accidents, but no liability for any that may happen.
CLARET is a rich mahogany bay 5 feet 3 inches high, 6 years old the coming Spring of great substance and power, with the most perfect action. The subscriber would be happy to give the entire performance of Claret, but the limits of a newspaper advertisement will not admit of it, he therefore will refer the reader to the March (1835) No. of the Turf Register for his memoir in full.
Claret won 4 times at 8 years old, beating many of the best colts of England; and at Huntingdon, won a plate of 50 sovereigns at 3 heats, against horses of all ages, showing that he possessed the characteristic stoutness or bottom of his family. At 4 years old he was again put in training and was the first favourite for the Donal Stakes, one of the great Sweepstakes, of New Market; but early in the spring and before he had run in public, he unfortunately trod in a rock while taking his exercise, and thereby wrenched and injured his off fore leg and knee so much, as to render it necessary to throw him out of training altogether.
Pedigree.—Claret was got by Claret to Margaux, the best 4 mile horse of his day, and one of the best sons of the famous Whalbone; his dam by that capital racer and stallion Partizan, his grandam by Gohanna, the best mile horse of his day; his great grandam by Orrille the sire of Emilius, &c. who covered at 50 g. a mare out of the dam of Babes Sedwick, by Alexander—Highflyer—Alfred—Engineer—Malton's dam by Cade—Lass of the Mill by old Troller—Miss Kallack by young Greyhound—Dick Pierson—Barton barb mare. Thus it will be seen, that Claret is one of the best bred horses in the world, for besides the blood of Chateau Margaux, he traced through another, equally famous and splendid. EDMD TOWNES.

Great Northern and Southern DAILY MAIL ROUTE.

THE Petersburg Rail Road company inform the public that their road, extending from Petersburg, Virginia, to Blakely, North Carolina, on the Roanoke, a distance of 61 miles, and constituting a part of the Great Daily Mail Route, North and South, is now supplied with superior Locomotives and Cars, to accommodate all the travel that may offer. The Cars leave each end of the Road daily, on the arrival of the respective Mails. Travellers with their own equipages, can have their horses and carriages transported on this Road, with perfect safety and convenience; and thus perform in 5 or 6 hours, while resting their horses, a journey that would otherwise require two days to accomplish. The Blakely Hotel at the southern termination of the rail road, has been re-built of brick on an enlarged scale, and no pains will be spared to render its accommodations as will give satisfaction to passengers and travellers generally.

Besides the daily line of Mail Coaches from Blakely for the south, via Raleigh, Fayetteville, &c. there is a Line via Tarborough three times a week, connected with the Mail Line at Fayetteville, and also a line from the Rail Road at Blakely to Charlotte, Milton and Danville.

Another tri-weekly Line from Blakely, passes through Warrenton, Oxford, &c. and connects with a line to Salisbury, N. C.

In the course of the present season, a branch will be opened from the Petersburg Rail Road at Blakely, to Wilkins Ferry at Gaston, on the Roanoke, from whence a Rail Road to cross the river by a bridge, is now about to be constructed to Raleigh.

The Rail Road from Baltimore to Washington is now in operation, thence to Potomac landing the line is continued by Steam-boats; thence via Fredericksburg to Richmond, a considerable portion of the Rail Road is finished; and the remainder is in a rapid course to completion. The line continues from Richmond to Petersburg, by a turnpike road; and thence by the Petersburg Rail Road to Blakely, as before mentioned, is the main and only Daily Mail Route between Boston and New Orleans.

Ten Dollars Reward.

STOP the runaway!—A few weeks since I purchased a Negro man, named Calvin from A. D. Dunn, who purchased him from Robert Perry of Raleigh. Said boy was in the woods at the time I bought him, and I have reason to believe he is about Raleigh, or in the neighborhood of R. N. Jeffreys' plantation. He is a black boy, about 23 years old, stout, and somewhat knock-kneed, and has a smiling countenance when spoken to. The above reward will be paid to any person, who will deliver said negro to me, near Rogers' M. roads, in Wake county, or in jail at Raleigh.

Ten Dollars Reward.

BROKE Jail, on the 13th inst. a negro man named Luke, committed to the Jail of Johnston county on the 18th January last, as a runaway. Said Negro reported himself to be long to a man by the name of Geo. of Halifax county, N. C. Luke is between 20 and 30 years of age, very black; of athletic form, about 5 feet 10 or 11 inches high, very low forehead, and covered with thick hair. I will pay the above sum for the apprehension of said negro, so that I get him again.

Runaway Negro.

A NEGRO girl named Delia ran away from a subscriber, on the 13th ultimo. She is a bright Mulatto, about 17 years old. There is no doubt she is concealed somewhere in Raleigh, or neighborhood, by some designing person, in order to get her out of my possession. I hereby warn all persons from harboring or purchasing said girl. A liberal reward will be given to any person who will apprehend and deliver her to me, or confine her, so that I get her again.

Artificial Nipple Shield.

FOR the prevention and cure of Sore Nipples. The following highly respectable certificates are deemed a sufficient recommendation for those who are afflicted in this manner, to try them.

From Doctor Wm. P. Dewees, late Professor of Obstetrics, in the Medical University of Philadelphia:
Doct. ELIJAH PRATT:
DEAR SIR: As I feel it a matter of much public importance, to possess a means of lessening the terrible sufferings from sore Nipples, I have much pleasure in being able to say, that the "Shield" you offer for the preventing and the cure of this malady, is better adapted to the purpose than any I have heretofore seen. In the two or three instances I have known them to be used, much satisfaction has been expressed, and I have no hesitation to believe it will, generally succeed. I am so well persuaded of this, at this moment, that I cannot forbear to express a wish that our city, through the various Apothecaries, may be supplied with them. I am yours, &c.
M. P. DEWEES, M. D.
Philadelphia, Jan. 13, 1834.

From Dr. Thomas Seawall, Professor of Anatomy and Physiology, Columbia College, District of Columbia:
WASHINGTON CITY, 4th Feb., 1834.
Having examined Dr. Pratt's newly invented Nipple Shields, and witnessed its practical application, among my patients, I take great pleasure in recommending it as decidedly superior to anything previously known. It constitutes a perfect remedy for that distressing malady, Sore Nipples, a disease which so frequently afflicts young women.

THOMAS SEAWALL, M. D.
From Thomas P. Beers, M. D., Professor of Obstetrics, in the Medical University of New Haven, Connecticut:
Having witnessed the application of the artificial nipple, invented by Dr. Pratt, in several cases of excoriated Nipples, in which the children attached themselves to it as readily as they would to the natural ones, and received their fill with perfect ease to the mothers, I have no hesitation in recommending it as decidedly superior to any thing of the kind with which I am acquainted.
